Washington.—Negotiations between the American and the senate finance committee are proceeding satisfactorily, but the reports of an abandonment of the house bonus bill are untrue. The suggestion of Senator Smoot that a "paid up insurance" policy be given as a substitute for adjusted compensation certificates has been declined by the American Legion. It was Mr. Smoot's own proposal and not that of the finance committee.

"We have neither abandoned the house bill nor agreed upon any substitute," said Senator Smoot, chairman of the Senate committee, to this correspondent today.

Inquiry at American Legion headquarters disclosed the fact that with the exception of a few minor details there is virtually no change in the position of that organization which is insisting that the house bill be adopted.

The fundamentals in the new proposal made by the Senate finance committee in its informal talks with the American Legion are substantially the same.

Later Cash Payments

First, the house bill provided that payments in cash be made in October, 1922, and the Senate wants to make it three months later, January, 1923. To this there is no objection on the part of the Legion.

Second, there has been a suggested limit heretofore on the time the soldier could receive his bonus.

Kneeskern Guilty 1st Degree Murder

(By Associated Press.)

Decatur, Ga.—F. B. Kneeskern, wealthy cattle buyer, on trial for the brutal murder of Mrs. Irene Van Brocklin, was found guilty of first degree murder by a jury in district court here Wednesday night.

Life imprisonment and a \$10,000 fine were the sentence recommended by the jury which had deliberated 11 hours and 17 minutes.

Mrs. Chas. Van Brocklin, Kneeskern's sister, collapsed when the verdict was read. She was carried from the court room shrieking "he can't be guilty." Kneeskern maintained his poise, although his eyes were wet with tears.

Defense counsel announced he would seek a new trial.

Mrs. and Mrs. Charles Van Brocklin were married in December 11, 1921, in their log cabin home near Frankville, Winnebago county. Van Brocklin was 21 years old and his wife was 19. Elmer Van Brocklin, brother of the murdered man, was arrested a few hours after the bodies were discovered. After a lengthy preliminary hearing, behind closed doors, he was released and Kneeskern was taken into custody.

State's Charges.

The state charged that Kneeskern conspired with the murders when he alleged relations with Mrs. Van Brocklin were discovered by the husband.

Defense attorneys contended that the crime had been committed by Elmer Van Brocklin, citing alleged threats which she said, he had made to his brother and sister-in-law, due to their reported intention of testifying against him when he was arraigned on a charge of stealing corn from a neighbor.

Married in Janesville.

Mr. and Mrs. Charles Van Brocklin were married in Janesville in 1919. The bride was the 19-year old daughter of Mrs. Fred Rice of Shopshire, a former marriage of William J. Bryan. Withdrawal of a previous invitation had brought protests. The committee reiterated that withdrawal of the previous invitation had not been caused by Mr. Bryan's religious or theological beliefs. Mr. Bryan will address the convention on the evening of June 27, if he accepts the new invitation.

Brantford, Ont.—Captured with a suitcase containing portions of a human body which he was removing piecemeal from his rooms, Harry Dent was charged with the murder of Peter Seghian, his landlord. Mrs. Dent was held on a similar charge.

The torso of the slain man was found in Dent's rooms, while head and arms, which Dent admitted he had carried away on an earlier trip, were found in a canal.

Speech at the Centennial Celebration of General Grant's Birth

POINT PLEASANT, OHIO.—The spirit of peace and good-will, which President Harding declared Thursday at the birthplace of General Grant, was the keynote of his address at the centennial celebration of the birth of the great Union soldier.

Up the river from Cincinnati came the president's father and mother, General and Mrs. Hannah Grant, bringing the president, the wife of the president, congressmen, high national officials, uniformed military officers, soldiers, state officials, men prominent in civil life and hundreds of thousands of people.

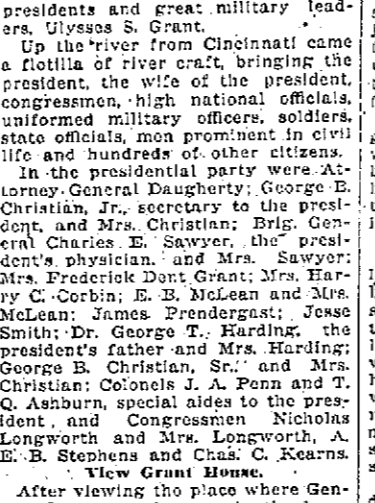

In the presidential party were Attorney General Daugherty, George B. Christian, Jr., secretary to the president, and Mrs. Christian; Brig. General Charles E. Sawyer, the president's physician; Mrs. Sawyer; Mrs. Frederick Dent Grant; Mrs. Harry C. Corbin; E. B. McLean and Mrs. McLean; James Prendergast; Jesse McLean; Dr. George T. Harding; the president's brother, General George B. Christian, Sr., and Mrs. Christian; Colonel J. A. Penn and T. Q. View Grant House.

After viewing the place where General Grant was born—only the lean-to still exists here, the house having been removed to the state fair grounds at Columbus—President Harding delivered an address from a small platform erected near the site of the Grant home. Sound amplifiers carried his voice to the thousands all in the village and to crowds that assembled in Lytle Park, Cincinnati, 30 miles away.

Though thousands participated in the celebration of Grant's birthday, but few were able to say they knew him personally. Only one such person now lives in this vicinity. He is William Forrester, Civil War veteran. He was assigned a place of honor.

Boy, 10, Drowns in Fall off Trestle

Falling 15 feet into Rock river from the railroad trestle just south of the Fourth avenue dam, at 6:15 Wednesday afternoon, Warren Curtis, 10-year-old son of Mr. and Mrs. John I. Curtis, 127 North Pine street, was drowned.

The body has not been recovered and it is feared that it may be for several days, owing to the high water and the swift current which is believed to have washed it hundreds of feet south.

The little boy is the first river victim of 1922 in Janesville. Mr. Curtis is a boilermaker at the Northwestern roundhouse.

Walking Across Trestle.

The Curtis had an 18-year-old playmate, Tom Rabello, 21 North Pine street, and John Bales, 232 Pine street, had just visited the Thoroughgood box factory on North Main street and a little way across the railroad trestle with sticks they had procured for making fires.

They had safely crossed the "un-guarded" section of the bridge and were about to cross the next section of the river when the little boy slipped through the fence along the edge of the trestle and dropped into the surging, icy waters below.

Unable to swim a few strokes, the little fellow fought his way to the bridge piling and caught hold of a spike on one pile about a foot from the surface of the river. One of the little mittens remained on the spike when rescuers arrived. Whether his hand slipped from the mitten or whether he withdrew it in order to make better progress swimming is not known, but the lad's playmates say he leapt the pile and started to swim toward shore.

Caught in an eddy, he was whirled down the river and soon went under about 40 feet south of the point where he fell in.

Few Boats Available.

The fire and police departments responded only about 10 minutes after reporting the scene. Chief Newman

It is remarkable how the people in the territory where the Janesville Daily Gazette is a daily visitor feel and keen appreciation of the "Week-End Edition." Its pages are read and unusual newspaper information, its stories, the best that can be bought, are all supplied in the "Week-End Edition." This will be especially pleasing to readers since there are many articles and features which make the "Week-End Edition" a most interesting and useful newspaper. How do you like the new detective story of the Villa Rose? Have you seen the picture of the woman in the old French mansion? You are likely to be doomed to disappointment if you do not see it. The thought is that it will be at all. And you will be kept guessing clear to the end.

RUSH PROTECTION AS CHINA SEETHES

Marines and Bluejackets Reinforce Legation Guard in Peking.

(By Associated Press.)

Peking.—Measures for the protection of American and other foreign interests here have been expedited in view of the threatened between the forces of Generals Chang Tso Lin and Wu Pei Fu.

Train service to the coast has not been suspended, but is irregular, and the legations are prepared to order the evacuation of the city in case of operation, should serious interference develop. Thus far nothing but precautionary action has been taken, but it is stated that an allied fleet will land troops if necessary to keep the communications open between Peking and the sea, in compliance with the protocol of 1901.

One hundred and seventy-five bluejackets and 200 marines are expected to arrive Thursday to reinforce the guard of the American legation. The men are from the United States cruiser *Albatross*, which was ordered to leave San Francisco.

The military activities of the opposing generals continued. Wu has concentrated 25,000 men at Pao Ting Fu, the capital of Chih Li province, and Chang has 30,000 soldiers along the railroad from Peking to the sea.

Alice Farwell, on Stand at Brother's Trial, Tells of Meetings With Hosten

(By Associated Press.)

Madison.—The story of her love for Phil Hosten, a Belgian farmhand, of their clandestine meetings on her brother's farm and of his bitter enmity toward her sweetheart, continued to be unfolded by Alice Farwell Thursday night at the trial of her brother, Harry, charged with first degree murder for his confessed slaying of Hosten.

At the cross-examination late Wednesday, and made more dramatic by her brother's testimony, she told how her brother had objected to the attentions of Hosten toward her and, on a former occasion, she had heard shots which Hosten had told her had been fired at him.

On the night of the killing, she said, Hosten had rapped on her window shortly after her brother had gone outside and told him to "get out as fast as you can, because I'm going to shoot you."

Hosten was said to have run toward the fence in the farm yard, while she turned back into the house. According to her story, she heard no shots fired, although Farwell is supposed to have fired the fatal shot.

She testified that she had been carrying a gun on two former occasions.

Miss Farwell is considered the principal witness at the trial, and with the testimony of the prosecution, the state is expected to examine few more witnesses before resting its case.

BELOIT POLICE TO HAVE DOOR-BUSTERS

Beloit.—Calling on a home in Pleasant street with a search warrant and being forced to wait on the wrong side of a stormy door for 10 minutes, while water was substituted for moonshine, has aroused the ire of Beloit police.

Chief Charles Qualman has issued a order to include in the raiders' equipment sledge hammers, axes and sticks of dynamite.

Police, when they were allowed to enter, found one bottle which smelled "strongly" of alcohol. It will be analyzed. Arrests will depend on the result.

ENJECT RUSSIAN ANSWER TO COUNTER PROPOSALS

(By Associated Press.)

Genoa.—The representatives of the big Russian empires and Portugal, expected to arrive here today in final form Thursday, the statement to be presented to the Russian delegates in answer to their counter-proposals for the economic conference of Genoa, which the allies found unacceptable.

This statement is being drawn up primarily to satisfy England, France and Belgium, who are the heaviest creditors of Russia. In their answer to the allies, the Russians appear to have made no reference whatever to the war debts which the allies said, they were ready to scale to Russia.

Await Debt Attitude.

In the English text of the allies' proposals, the phrasing was: "In view of the serious economic condition of Russia, the allies are prepared to write down the war debts owing by Russia to them." The Russians apparently interpreted the words "write down" to mean "write off" in other words, complete cancellation. They therefore ignored the war debts in their rejoinder. "What the attitude of the powers will be on this question has not yet been decided," it was said.

Meanwhile, the conference has developed plainly into one of the most political world convales in history by reason of the momentous question of Russia's war debts.

Political Developments.

The Russo-German treaty, which many expect as the harbinger of a great revulsion between the formerly mighty nations, has been followed by other political developments, such as the proposed summing of the Versailles peace settlement to discuss the measures to be adopted if Germany does not meet her war reparations obligations.

Further note of gravity was added to the situation by Premier Lloyd George of Great Britain, in his address Wednesday night to the American and British press correspondents. He stated that he was warning that a new political crisis was facing Europe.

Dangerous "Bargains"

—Don't Let Them Lure You

By MARY BAXTER HALL

One "bargain" that never tempts me any more is the "poor man's bargain." I used to rush after such "bargains." But I learned from an expert chemist that the cheapness of such brands of soap that he found every bar was only 1/4 to 1/2 soap and the rest was water "filler" without cleaning power. "Filler" is put in to make a little soap look like a full-size bar. Worse than that, when the "filler" is rubbed into the cloth, it rots and cuts the threads. All this was proved by scientific tests.

This chemist recommended a large, greenish laundry bar made by The Palmolive Co. and called GREEN ARROW. This is the only bar he found that is all soap, pure soap. Besides it contains real olive oil and naphtha. Fabric experts wash with olive oil to restore the freshness and softness of fibers. And I presume every woman knows that olive oil is one of the quickest cleansers known, and the mildest. That's why women so generally favor olive oil in toilet soap and shampoo. But who, in her wildest dreams, ever thought she would be able to get olive oil in an economical laundry bar?

Well, I was indeed surprised to learn it. And I thank my lucky stars I found the chemist's trick at once. Since then my clothes have looked more beautiful than ever. Every wash makes me "clothes proud."

I am sure your grocer carries GREEN ARROW. Order some today and in a month or sooner you will see a big difference in your clothes, your hands and your work. You'll also notice that you buy a great deal less soap for GREEN ARROW naturally goes twice as far as an ordinary bar that is 1/4 to 1/2 "filler."

\$1,400,000 PAID TO TEACHER FUND

State's First Contribution May 1 Announced by Tax Commission.

[BY ASSOCIATED PRESS.] Madison.—A payment of nearly \$1,400,000 will be made to the teachers' insurance and retirement fund, May 1, as the state's first contribution to the teachers of the state under the law enacted by the 1921 legislature, the tax commission announced Thursday. Important problems of administration are involved with receipt of this money which sets the teachers pension law in full operation.

Court action to test constitutionality of the tax features of the statute is anticipated by the annuity board charged with the administration of the measure. Certain Milwaukee corporations are said to have already notified the board that they intended to contest the provision which establishes a surtax amounting to one-sixth of the regular income tax on all incomes over \$2,000.

It is from application of this section of the statute that the \$1,400,000 raised during the present year from 1920 incomes, to meet the state's obligation to the teachers as provided by the law was secured.

Sees Attack Dismissed. R. E. Loveland, executive secretary of the annuity board, expresses the opinion that the expected attack on the law will be dismissed by the supreme court when brought before it, but says that the board does not feel that there is objection to a final settlement of the law. He has held conference with Attorney General William J. Morgan, to prepare the state's defense should an action be commenced.

The receipt of the tax funds raises the problem of investment which from its first meeting is said to have been the principal subject of consideration.

Over \$200,000 has been placed in first mortgages and Liberty bonds, but the \$1,400,000 to be paid in by the state on May 1 is reported to involve a question of investment.

This plan is expected to provide a means of loaning the teachers' money at regular rates of interest on improved farm lands, serving as a source of loans to farmers, at the same time greatest safety is secured. Details of the investment proposal are expected to be settled by the annuity board at its May 13 meeting.

Law in Operation.

The retirement fund law, Mr. Loveland said, will be in full operation just as soon as the first payment is made by the state. Teachers are making their payments regularly, and funds are accumulating which are credited to the individual accounts of each teacher.

Any surplus from the \$1,400,000 received from the taxpayers of Wisconsin, as their payment to the teachers during the first year of operation of the law, will be placed in a contingent fund to meet future obligations.

Several thousand teachers who now are not taking advantage of the law, are expected to be induced to do so by the receipt of contracts made before it went into effect July 1, 1921, will come under the compulsory provision of the statute at the opening of next year.

Teachers are assessed five per cent of their salary to meet their payments to the pension fund, while the state adds to these payments in increasing amounts as the term of service of the teacher increases.

Mines Decree
Rights in mining and industrial properties are rapidly passing into private hands, says a dispatch from the Russian official telegraph agency at Moscow. The Siberian department of the Supreme Economic Council reported that up to Dec. 1, 1921, out of 150 lease agreements signed, 70 went to private concerns. The "trusts" are working combinations wherein a number of mines are to be operated by government agencies conducted along commercial lines, have just been formed in Siberia. Prominent Oshkosh Man Had Suffered From Liver Troubles. For Years, Before Using Trutona, Which Brought Relief

Restored Appetite, Overcame Bitter Taste, In Mouth and Made Him Feel 100 per Cent Better, Mr. Cook Asserts

C. M. Cook, prominent retired farmer of 13 Hudson street, Oshkosh, is one of the thousands of Wisconsin people who are today enjoying perfect health as a result of having taken Trutona, the famous tonic. For years, Mr. Cook had been suffering from liver troubles. Recently he began using Trutona, with the result

that—but let Mr. Cook tell his own story:

"I have been continually annoyed by a bitter taste in my mouth, which had completely deprived me of my appetite." He said. "The sluggishness of my liver had caused me to feel bloated, and I was always constipated and finally, realizing that my entire system needed toning up I began using TruTona. Well, sir, like so many others I found exactly the relief I needed. The bitter taste, which had formerly bothered me so much, had stopped as if by magic and my appetite has improved fully 100 per cent since the bitter taste has left my mouth. My liver is now well regulated and in a general way, this great medicine has simply made me feel like a different man. To say I'm perfectly satisfied with the relief TruTona has given me doesn't hurt, expresses my feelings."—

Mr. Cook's story rings with sincerity that cannot be doubted. It furnishes further unquestionable evidence of the fact that for over-coming liver troubles and the consequent ailments of the system, TruTona is unequalled. A trial will convince YOU of the merit of this famous reconstructive tonic which is sold and highly recommended in Janesville at the REFORMERY, S. J. S. in Evansville, at the TruTona Store; Milton, Stewart's and all good druggists in surrounding towns. Advertisement.

REPORTS OF GOLD STRIKE START RUSH

Scenes in British Columbia Rival Those of Klondike Days.

(SPECIAL TO THE GAZETTE)
Vancouver, B. C.—Reports of big gold strikes in the Cedar Creek and Whitewater sections of the Caribou district of British Columbia have started what has all the earmarks of another Klondike rush.

Fabulous tales are being brought here about the richness of the new fields and the gold fever is hitting sour-doughs and tenderfoot alike.

All Clinics Join.

The rush already has started and groups of grizzled old prospectors, veterans of years of following the gold lure of Alaska, are going out every day, followed by parties of clerks, office men and others with no experience in the hard life on the trail of the shining dust.

Whether the new rush will equal that of 1897-98, which lured thousands to the frozen north, is yet to be determined, but the influx of seekers after sudden wealth already is big enough to make it impossible to buy a gold pan here. Picks and other mining equipment also have been sold out by hardware stores and the demand for heavy boots, overalls, heavy shirts and clothing is reported by merchants to be unprecedented.

Gold Rush "De Luxe."
This rush is different, however, from the famous Klondike rush. Instead of the thousands of miles of unbroken trail, prospectors can go to Williams Lake, within less than one hundred miles of the new fields, by railroad. From Williams Lake to Cedar Creek it is only sixty miles and forty miles farther on is Whitewater. Good roads lead to these places from the end of the railroad.

So the miners are going to the new fields in motor cars—a rush "de luxe"—and, judging from the specimens brought to assay offices here, with a better chance of striking pay dirt than in the old days on the Yukon.

A group of three songs were sung: "O Tempora, O Mores," "Begone Dull Care," and "Long Long Ago." Community singing was also enjoyed. GRANDALL'S TEAM SMASHES QUAKERS HARD; SCORE 9-7

(By Gazette Correspondent.)

Milton college, with Rollin Gridley, Janesville high school athlete, in the box, opened the baseball season here Wednesday afternoon by defeating Whitewater Normal, 9 to 7. Hard and opportune hitting by Coach Grandall's men aided in the easy fielding of the visitors, but Milton ahead in the third inning, and thereafter the Quakers were held off with ease while the Brown and Blue plied up and down the bases.

With the score 9 to 4 against them, the visitors made a strong comeback in the last inning, but were stopped after their first hit, a single to center field, by a hard effort as a college hurler, pitched a steady game and was successful in pulling himself out of several tight places.

Gridley, in his maiden effort as a college hurler, pitched a steady game and was successful in pulling himself out of several tight places.

By FRANK SINCLAIR.

"Contract jumpers will have no standing in this league." So rules President Klavin of the Fox River Valley. He goes further and orders that no team in the circuit shall play teams harboring contract jumpers. If all other baseball leagues of this class would do likewise, the entire game of baseball from the bottom to the top would have a healthy increase in support from the fans.

The man who gets his sport second hand by watching professionals play loses all the health, exercise and vigor that the sport is intended to give. The boy on the back lot swinging a broken bat at a ragged ball is a better sportsman than the fellow who occupies a box seat at all the big league games. —Emerson Hough, sporting writer.

Ames! It is a treat to have a man to whom sportsmen everywhere look up come out and make such a statement. He further said: "America was built by men who enjoyed the sports of its woods and waters for themselves and who would scorn to pass a professional to play their games for them."

The Pross and the Logan Squares of the Chicago Midwest Baseball league are growing in such prominence they have to enlarge their parks.

Fox River Valley High school conference meets at Appleton, May 8.

Jack Tracy heads Plattville baseball team.

It isn't any wonder the Badgers are leading the Big Ten conference at baseball when the University of Wisconsin has such a man as Guy Lowman at the head of the national sport. He's a man who instills instant confidence in his ability to teach the game.

Ralph Shimmers, holding down the center field position on the Giants, has more resting upon his shoulders than just to train himself in slugging. He's a man who has been looking for a man for that berth. Much of the strength of the Gothamites will depend upon the manner in which Shimmers holds the post.

PUTNAM DUPE OF CONSPIRACY, CLAIM

Pierce Raps Worthington, Moore—Case Put Over to June 2.

Picturing Parker Putnam, South Janesville hotel proprietor, as a man who was led into committing a law violation—that of selling liquor, through a stool pigeon sent about his mission by Roy Worthington, deposed deputy sheriff, that the latter might arrest him for violation of the liquor laws—Attorney Charles E. Pierce moved for the dismissal of the case in Judge H. L. Maxfield's court Wednesday afternoon. The motion was granted on the grounds that no crime is committed where it is not done of a person's own volition, came after Worthington had been put through a grilling, in which he freely admitted Ernest Miller, Beloit man, had been sent to the hotel to get evidence upon which he could secure an arrest.

Judge Maxfield then granted the request of District Attorney S. C. Dunn to continue the preliminary examination of Putnam until June 2, so that the state might make an argument. During his time on the stand, Worthington was called upon to answer time to time questions relative to rumors of irregularities in his administration of the duties of deputy sheriff, which were mostly denied.

Worthington Denies Stories
He swore he didn't use Frank Miller, that he had told Putnam if he would tell him where the whiskey was he would leave it alone; that he didn't tell Parker he wanted some liquor for a party and that he had not drunk during his term as deputy sheriff except at South Janesville.

Worthington said Parker had told him to take some liquor that he might have a party at his house. Through questioning, Attorney Pierce attempted to show that Worthington, friend of Putnam, had made a visit to the South Janesville hotel with the express purpose of cutting Putnam's throat "metaphorically" speaking. Worthington also denied he had told Joseph Cain that, if he would tell the sheriff he had a search warrant, he would make him under sheriff when indicted. He said he had done this only to see if the sheriff would tip off the place he planned to raid.

Plea for Dismissal
In his plea for dismissal of the case Attorney Pierce attempted to show that there was no evidence an offense had been committed, that the liquor alleged to have been sold was bonded whiskey which the defendant had a perfect right to have in his dwelling; that he had no intention of selling the liquor and that a deputy sheriff, a "would-be detective," the district attorney and the county highway commissioner had entered into a conspiracy to get the defendant to sell whiskey.

Pierce Vexes Warm
He described Worthington as a disgrace to the community. He said the first mistake of the sheriff was in appointing him; the second in not removing him sooner. He attacked Charles Moore as an interloper, who was to be pulled more than blamed, because of the size of his head. He said that the sheriff would have been guilty of a misdemeanor and subject to removal if, in finding that a deputy sheriff had committed one, he did not remove him at once. He alleged that Worthington and Fuller were guilty of irregularities.

"Officers of the law in this case violated the fundamental principles of law as well as morals," inveigling Parker Putnam into crime that they

DUDDINGTON HELD ON FRAUD CHARGE

Business Map Made False Statement to Procure Loan, Claim of Bank.

Charged with having drawn up a fraudulent statement of assets and liabilities in order to secure a loan last September, W. R. Duddington was arrested and arraigned before Judge H. L. Maxfield in municipal court Wednesday. He is a member of the O'Brien & Duddington firm which on Tuesday filed a voluntary petition in bankruptcy, listing assets at \$15,000 and liabilities at \$29,000. Duddington demanded an examination, which was set for May 12, and was released upon \$500 bail.

Allege False Figures

The Bank of Southern Wisconsin, complaining witness, charges that Duddington grossly misrepresented financial conditions of the firm on Sept. 3, 1921, in order to obtain a loan of \$2,000 from the bank and to procure an extension on a previous loan of \$6,000.

It is claimed the defendant presented a signed statement to the bank showing assets of \$53,000.10 and liabilities of \$26,716.07, which, "he then and there knew to be false."

The allegation is made that Duddington well knew the liabilities of the company were greatly in excess of \$26,000 and closer to \$50,000, and that he was aware the assets did not run as high as \$53,000.

He presented the statement "with the intent to cheat and defraud," the complaint states.

The alleged statement showed assets as follows: Bills receivable, \$800; merchandise and fixtures, \$54,089.92; and cash in bank, \$29.18. Total, \$55,022.10.

Liabilities were listed as follows:

according to the complaint: Bills payable, \$22,716.07; loan from bank, \$4,000. Total, \$26,716.07. Such an offense is punishable by a maximum sentence of five years in state prison or a \$5,000 fine.
